Re: PC 53 – Potomac Edison Monthly Requested Data

Dear Secretary Johnston:

In paragraph 12 of Order No. 89636 issued on September 22, 2020 (“Order”), the Commission directed utilities to begin providing monthly reports on nine (a through i) categories of information. Attached please find the seventeenth such report from The Potomac Edison Company (“Potomac Edison” or “Company”). The data provided is for the month of January 2022. For item g, the number of customers who applied for energy assistance, Potomac Edison has supplied the number of customers in the Company’s service territory who were certified for assistance during the reporting period; the Company would not know the number of customers who contacted the aid agencies to apply. Additionally, please note that, with respect to arrearage totals, the numbers include a handful of accounts for which we have not been able to determine which county the customer resides in.

Finally, please note that the total arrearages have increased by over \$2.6 million from those reported for August 2021, which was the month when the arrearages owed by Company’s customers were reduced by payment of the RELIEF Act funds allocated to Potomac Edison.

Please do not hesitate to contact me if you have any questions about this matter.

Respectfully submitted,

Jeffrey P. Trout
Senior Corporate Counsel
