Re: Case No. 9482– In The Matter of the Application of CP Crane LLC for a
Certificate of Public Convenience and Necessity Authorizing the
Modification of the Charles P. Crane Generating Station in Baltimore
County, Maryland.

Dear Ms. Romine:

Enclosed please find an original and 17 copies of the Department of Natural Resources, Power Plant Research Program and Maryland Department of the Environment's response to air comments raised at a public hearing held in accordance with the requirements of Public Utilities Article 7-207(d). These comments should be provided to Public Utility Law Judge Lawrence in accordance with the Second Modification of Procedural Schedule dated May 9, 2019, along with this letter, to make clear that MDE is providing a response to the comments on air quality only, and believes the record contains adequate information to address other issues raised. In view of MDE's response to the comments on air conditions, PPRP does not believe that any revised recommended licensing conditions are warranted.

Sincerely,

A handwritten signature in blue ink that reads "Steven M. Talson".

Steven M. Talson
Assistant Attorney General
