**Re: Case No. 9483, Application of Citizens UB Solar, LLC for a CPCN  
to Construct a 9.9 MW Solar Facility in Union Bridge and Carroll  
County, MD**

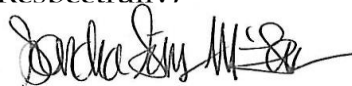

Dear Mr. Johnston:

On behalf of PPRP for filing in the above-captioned docket, enclosed please find the original and 12 copies of the corrected language for Revised Final Recommended Condition No. 26 addressing glare mitigation. The corrected language reflects the accurate wording intended for Recommended Condition 26 and should replace the language inadvertently included for condition 26 in the November 15<sup>th</sup> filing. This revision is consistent with the testimony of PPRP witness Frederick Kelley given at the evidentiary hearing, held on December 19, 2019 before Chief Public Utility Law Judge McLean.

Accordingly, PPRP would request that it be incorporated into the reviewing State agencies' Revised Final Recommended License Conditions filed by PPRP on November 15, 2019.

Thank you for your attention to this matter.

Respectfully,

A handwritten signature in black ink, appearing to read "Sondra Simpson McLemore", with a long horizontal flourish extending to the right.
